Professional Summary

Detail-oriented Frontend Developer with over 1.5 years of experience specializing in Angular. Demonstrated ability to build scalable, high-performance web applications with expertise in RESTful API integration, role-based authentication, performance optimization, and SEO best practices. Adept at collaborating with cross-functional teams to deliver clean, maintainable code and enhance user experience.

Professional Experience

Junior Software Engineer · **ownAI** — Rajkot · Sep 2024 - Feb 2026

- Developed responsive landing pages and dynamic web interfaces using Angular, ensuring cross-browser compatibility and optimized performance.
- Customized UI themes to align with client branding and business requirements.
- Implemented and consumed RESTful APIs for seamless frontend-backend communication.
- Integrated third-party APIs and external services to enhance application functionality.

Projects

ownAI Portfolio · **https://www.ownai.net/** — 2026

Frontend Developer (Angular)

- Designed and developed a modern, responsive landing page with smooth animations and visually engaging UI components.
- Enhanced user experience by improving navigation, layout structure, and interface design.
- Applied SEO best practices, including meta tags, structured content, semantic HTML, and performance optimizations.
- Improved website loading speed through lazy loading, asset optimization, and efficient component structuring.
- Ensured cross-browser compatibility and mobile responsiveness for a consistent user experience across devices.

OMS (Organization Management System) · — 2026

Frontend Developer (Angular)

- Developed a role-based Organization Management System with secure authentication and authorization.
- Implemented role and permission-based access control (RBAC) for Admin, HR, and Employee modules.
- Built and integrated invoice templates with dynamic data binding and export-ready formats.
- Collaborated with backend team for seamless RESTful API integration across modules such as attendance, leave management, client management, employee records, and invoicing.
- Ensured secure login flow, protected routes, and optimized performance across all modules.
